

1. Title of the Practice

E-Classroom

2. Objectives of

E-Classroom is an initiative towards e-learning through College Web-site. It is also worked as a digital depository or institutional depository of classroom materials in multimedia formats.

3. The Context the Practice

The college has taken an initiative of e-learning through college web-site. But we are facing the challenges of big data storage/ server space in this regard.

4. The Practice

E-Classroom is one of the most helpful for students as well as teachers in the context of classroom tuitions.

5. Evidence of Success

Most of the academic departments are showing positive interest on the concepts and the students are regular beneficiaries.

6. Problems Encountered and Resources Required

Digital Space and making different aspects of the concept updated is the ultimate problem in this regard.

7. Notes (Optional)

Three departments already uploaded different classroom notes, YouTube links and different multimedia files in the E-Classroom of the institutional website. Remaining departments of the college are also showing interest in this regard as well.
