Speaker	Topic	Major concept
Dr. Parthajit Google Gangapadhyay	Bangla Shishu Sahityer sekal ekal	Some literature is the main road to the development of childhood and adolescence. Kindness, humanity, love in a person is created through reading literature. The origin of which is children's literature. An outstanding discussion cycle on the past

		and present of that child literary practice.
Sujan Barua	Bangladesher Shishu Sahitya	Although Bangladesh is our neighboring country, their national language is Bengali like ours. In terms of Bengali language and literary practice, the history of children's literature in Bangladesh is almost the same in both countries. Because before the partition of the country, there is no difference between the children's and juvenile literature practiced in the unbroken Bengal. But writer Sujan Barua has explored the new trends that have taken place in the practice of children's literature in the two Bengals after independence. Along with that, he expressed the attention and attitude of Bangladesh in some of the recent and juvenile literary practices.
Arun Shil	Bangladesher kishor kobita	Juvenile poetry is very different from adult poetry and it cannot be called a simple rhyme. Poet Arun Shil has sought guidance on the importance of such poetry in Bengali language and literature. Bangladesh has been deeply focused on the practice of children's poetry for several decades. At present, Bangladesh has not only been paying attention to the practice of juvenile poetry, but has also been able to write its history, he said.
