Resource Persons	Topic	Major Concepts
1.TAPAN BANDYOPADHYAY	Bangla Katha sahitya.	Renowned fiction writer Tapan Bandopadhyay sheds light on where the recent novel stands while

		expressing the background of the past in Bengali novel practice. As time progressed, the scope of the novel changed, its subject matter changed. During the era of Bankimchandra or Rabindranath or during the era of Saratchandra Chattopadhyay, the novel has changed the language of the recent novels, changed its words and ideas. While talking about several contemporary novelists, he gave his own opinion on how to write a novel, how the topic of a novel comes up and how that novel can become worthwhile.
2.SWAPNAMOIY CHAKRABORTY	Bangla Katha sahitye Biggan Monoskoto.	Where exactly is the focus of science in Bengali novels and short stories? And he gave a well-thought-out opinion about where or its appropriateness in very eloquent language. Renowned writer Swapnamoy Chakraborty expressed no doubt about the contribution of science to human life, but talking about how painful this science has become in human life, he said that Bengali literature has written one novel after another. The mechanics of machine life will be written more extensively in the coming days. People are relying too much on science. People are surrendering their lives to science. to the machine. He doubted that man would one day drive the machine, the machine would drive the man.
3.ARUN SHIL	Bangladesher Katha sahitye	The heart of the pain behind

	Deshbhag O Muktijuddho.	the birth of Bangladesh is partition. The Bengalis of East Bengal understand that even after becoming independent, they could not become independent even if the pain of partition did not dry up. A massive conspiracy to deprive Bengalis is going on all over Pakistan. A conspiracy has started to establish Urdu language ignoring Bengali language. That's when the war of independence started again, the dream of building a new country, the dream of which Bangabandhu Mujibur Rahman and millions of ethnically hating Bengalis followed. The liberation war started to protest and prevent the insult to Bengali language and Bengali. As a result, Bangladesh literature has been around for a long time around the partition and liberation war. The respect and status of that literature is very different.
4.SHYAMAL BHATTACHARYA	Influence of Bangla literature on neighbouring literature and ingredients of neighbouring language and culture in Bangla literature.	Acclaimed author Shyamal Bhattacharya served in the Indian Defense Forces in his personal life. His sense of life has greatly influenced his life as a writer. He himself gave the account of how he wrote one novel after another keeping in mind the calm environment of the border. He has also brought out in the novel that the nature and character of the border areas are not very normal like ten other places in the country.
