Name of the Programme: Environmental Awareness Programme and Saplings Distribution

Date of the Programme: 27th June 2023

No. of Participants: 30

Report:

As a part and parcel of Green Week Initiative organized by the Government of West Bengal, an environmental program movement was held on 27th June 2023. At the end of the programme, distribution of about 35 plant saplings as held among the students and teachers of G.B. Memorial Institution. Mr. Gourab Das, Assistant Professor of Vidyanagar College gave a brief presentation to emphasize the importance of planting trees and also how to live a sustainable lifestyle that is environment friendly by minimize our use of plastic thus taking small steps at individual level to protect and slow down our planet from the adverse effects of global warming and climate change. While sharing his valuable experience of life he also gave some valuable insights to the students. The fact remains that our college is situated at an eco-friendly environment and while keeping in mind the importance of nature, how the oxygen that we breathe is source from trees and how it is essential for human survival we as a community has always co-existed with nature through our eco-friendly efforts like plantation drives in the areas adjoining near the college. Together with the fact that we have a collage environment cell that takes up various activities like planting tree, flower plants from time to time and taking care of the college garden inside the campus. There is also an active NSS at our college that organizes environment related activities. We, as a community of students, teachers and staff understand and have always been raising awareness related to environment and how much dependant are we with nature while trying to explain how

the man-made problems of deforestation are all related to humans destroying our mother earth in the name of development as well as industrialization. We, at Vidyanagar College believe living, co-habiting, co-existing with nature is the surest way to a balanced eco-system, healthy and eco-friendly living without destructing and harming our environment.
